30 Num Boats			11	14	15	12	11	19	14										12	20	

I was asked at the last regatta what the results where for the Spring Series regatta. We had 30 different skippers compete during the Spring Series. Twelve boats qualified for the series with 8 additional boats only missed by one regatta. Skippers must have sailed four regattas to qualify. Scoring is the best four. The blocks highlighted in yellow were days when the skipper pulled PRO duties. Our largest fleet was 19 boats.

Skippers are assigned points based on time adjusted finish, calculated from the US Sailing Portsmouth ratings. The first place boat receives 1 point, the second place boat 2 points, etc. Any registered boat that does not compete (DNC), finish (DNF), is on course side at the start and fails to return (OCS), or is otherwise disqualified (DSQ) shall receive a score of the total number of registered boats plus 1. After all of the races are completed, each boat's regatta score will be determined using the following equation:

average finish position / total number of boats

A “dropout” will be invoked if more than 3 races are completed - meaning each skipper’s worst finish will not count in the final regatta score. The final regatta score is used to calculate regatta performance for the season and ASC Annual competitions. It rewards skippers that perform well in larger fleets (a first place boat receives 0.1 in a 10-boat fleet but only a score of 0.33 in a 3-boat fleet).

All regattas are scored by the registered skipper, not boat. If a crew member or someone else other than the registered skipper helms the boat during a race, the score will still count for the registered skipper.

No skipper attended all of the regattas.

The results are:

Lenny 1<sup>st</sup>

Chris 2<sup>nd</sup>

Tim/Jane 3<sup>rd</sup>
